

Sigfrido Delgado
Vice President, Orthopedics Business Unit
Jabil Healthcare

Sigfrido Delgado is a manufacturing business executive and engineer with a passion for restoring quality of life through innovative medical devices. He is the Vice President of the Jabil Healthcare Orthopedics business unit in the US.

After spending nearly 20 years with Johnson & Johnson, the largest and most diversified medical device manufacturer in the world, he has gained experience managing manufacturing operations of multiple brands, across multiple countries, and across multiple functions. He has contributed to improvements in supply reliability in the fields of orthopedics, cardiovascular, electrophysiology, and surgical devices.

Sigfrido has devoted his time and energy for the past +20 years to do what he enjoys the most, developing leaders and teams across all levels of a manufacturing operation. He has contributed to the leadership development of over 10 Manufacturing and Quality site leaders in the US, Puerto Rico, Mexico and Europe.

He is currently the Vice President of the US Orthopedics Business Unit of Jabil Healthcare. Sigfrido joined Jabil as an executive of its Healthcare division to lead the integration, P&L responsibilities, and operations of its Orthopedics business in the US. Jabil and Johnson & Johnson entered into a collaboration agreement in which Jabil acquired over 10 manufacturing sites across the US and Europe while Johnson & Johnson maintained the Research & Development, Marketing and Sales responsibilities for the portfolio.

He holds a BS in Mechanical Engineering from M.I.T. and has been recognized by the Reinhold Rudenberg Memorial Prize for his thesis in the field of energy conversion. His interest in the field of orthopedics and medical devices led him to develop an innovative device in collaboration with colleagues in the field, for which they hold a US patent.

Sigfrido lives in Texas with his family, where he spends time on mountain biking trails and enjoys equestrian sports and occasional road trips with his wife and daughters.
